Letter From Dr. R. Hunter, of New York, on Chronic Consumption.

LETTER NO. 6.

TO THE EDITORS PITTSBURGH GAZETTE:—Having pointed out the usual *symptoms* which occur in consumption, I purpose to explain in this and subsequent Letters the several *kinds* of this disease, for it must not be supposed that the symptoms are the same in all cases.

The most common form of this disease is known by the name of *Chronic Consumption*, and generally begins with a slight *dry cough*. It is called *chronic*, because of its slow progress. The old physicians used to regard *cough* as the *cause*, because it usually precedes consumption; but we now know that it is but the *effect*. It would be quite as sensible to say that pain caused decay in the teeth, as that cough produced disease of the lungs. Cough is but a symptom of irritation in the lungs, and for a long time is scarcely more than a *dry hacking*. Its cause is the presence of *tubercles* in their first stage of development, and if the patient were to die suddenly of an injury or an acute disease, we should find tubercles studding the *upper part* of one or both lungs, and looking precisely like millet seed. It is very common to find the lungs of those dying of fevers and inflammations filled with small tubercles, and that, too, where the health of the lungs had never been suspected. Indeed, many of our friends who regard themselves as perfectly healthy, are thus carrying about the seeds of their own destruction, deposited in the lungs during some recent cold, and only awaiting some future exposure to render them active, and develope the disease of which they are the germs.

Chronic Consumption begins differently in different cases. A person apparently in perfect health has an attack of *catarrh*, or *sore throat*, and when this subsides it leaves the *dry hacking cough* before alluded to. Or the first symptom is a *spitting of blood*, which may be considerable, and of a bright red, or only a *slight streak* in the mucus. In many cases the first sign is a *chilly* sensation in the back, followed by more or less heat in the *palm* of the hands, or an afternoon *flush* on the cheeks. Then again in many cases we find the hands and feet colder than natural. The patient probably does not feel this; but those in health, when shaking hands, immediately detect the difference. Should the flushing of the cheeks or the feverishness of the hands be followed by *perspiration* at night the patient is often thought to be suffering from *masked ague*.

The stomach in Chronic Consumption is not usually much disturbed until after the disease is firmly established. It is by no means uncommon for the appetite to remain *good* until diarrhoea sets in, when it becomes capricious and poor. In females, *monthly irregularity* is common from an early period of the disease, and arises from the *debility* produced by the state of the lungs. After *hectic fever and night sweats* are fully established, the loss of flesh and strength takes place rapidly, and the body may truly be said to *consume* away. In a severe case, the joints soon show the loss of flesh, by appearing larger than natural; the chest becomes contracted, the features sharpened, and the eyes attain more than their wonted clearness and brilliancy.

The *matter* expectorated changes with the different stages of the disease. In the commencement there is *no* expectoration, for the cough is *dry*; but after a time the patient coughs up a *frothy* mucus. This is usually *clear*, but now and then contains a little point of *yellow* or *straw colored* matter. Still later, the sputa becomes *yellow* or of a *greenish yellow*. When the deposit of tubercles follows *dry* bronchitis, the mucus is like *starch*, *glue* or *bluish* jelly. After the tubercles soften, the sputa is always *yellow*, and parts of it may sink in water. Sometimes the matter expectorated has a *sweetish*, and in others a *saltish* taste. There is little *pain*, often none at all in the part affected. There is, however, commonly some *oppression* in breathing, and perhaps an occasional *stitch* in the side.

In this form of consumption patients believe themselves always "*getting better*;" but, unfortunately, to the eye of the physician they are steadily growing worse. They do apparently improve, from time to time, but it is only in APPEARANCE, and is soon followed by a relapse, during which they sink to a worse condition than before. If we take the case of a patient with *softened* tubercles, he spits *pus* for a time, has *fever* and *night sweats*, with loss of *appetite*, *flesh* and *strength*, *coughs* incessantly, and can scarcely sleep at night. Then the cough gradually abates, the expectoration becomes less and of a better color, the fever and perspirations vanish, and he very naturally imagines himself rapidly getting well. Should he gain several pounds in weight, which is frequently the case, he points to it as an evidence of improvement. Follow such a case, for but a few months, and all old systems return—*hectic fever, night sweats, cough*, and *purulent expectoration*, and, with them rapidly disappear the newly acquired flesh and strength. A temporary improvement in symptoms is therefore no evidence of improved health, unless it be accompanied by such changes in the lungs as show that the tubercles are being *absorbed*. These changes for the better take place in most cases of Chronic Consumption, but they are always followed by corresponding changes for the worse; and at the close of each succeeding one, the eye of the physician readily detects that the constitution of the patient is, step by step, giving way.

Now, it will be asked, why is this? The reason is easily explained. Consumption, as I have already said, is caused by *tubercles* in the lungs, and tubercles by *irritation* in the air-tubes, consequent upon neglected colds, catarrh, sore throat, bronchitis, &c. This irritation may occur many times, and exist for a long time, before tubercles are *generated*, but sooner or later a more severe attack than usual is followed by the rapid deposit of miliary tubercles. The cold disappears before many weeks, and the irritation being withdrawn, the tubercles cease to form. Bear in mind, however, that those already deposited *remain*. Months may now pass away before a new cold revives the irritation, and causes a further deposit. Thus tubercles are deposited in successive *corps* and at different times. Those *first* formed are the first to *soften*. As soon as they are expelled, the patient improves, until the *second* crop begins to soften, when he again relapses. Now, at each softening of tubercles a part of the lung breaks down; hence, as the lungs are destroyed, piece by piece, the body wastes away by successive relapses. During these periodic improvements *nostrums* and villainous compounds of every description obtain the credit of effecting the temporary amendment, when, in reality, they do harm instead of good, by interfering with the proper action of nature. By such means most patients are tampered with from the day they are invalids to the day they are laid in their graves. *Cure* is only effected by carefully adapting the treatment to the stage of the disease, and applying the remedies directly to the affected part. This I shall explain when I come to speak of treatment. ROBERT HUNTER, M. D.

District Meeting of G. A. R.

Pursuant to General Order No. 3, from District Headquarters, a large meeting of Post Nos. 3, 4, 35, 36, 38 and 44, was held at the headquarters of Post No. 3. After the usual business the following preamble and resolutions were offered and adopted:

WHEREAS, The Pittsburgh *Post* has published *gratis*, a two and a half column article for the benefit of the Grand Army of the Republic, headed, "Official Expose of the Concern," &c. Therefore be it

Resolved, That the thanks of the various Posts of G. A. R. of the District of Allegheny, in convention assembled, be and are hereby tendered to James P. Barr and his associate editors for their kind and liberal use of their columns in promulgating the objects and aims of the G. A. R.

Resolved, That as said paper is not generally known or read by *soldiers*, and those who upheld the Government in her hour of need, that the editors are respectfully requested to republish their "Official Expose" providing they do it at the same cost: and we hereby pledge ourselves to advertise the fact of its republication in the various city papers, so that it will be an object to the *Post*, and that we will request all soldiers to forget the prejudices they formed in the field, and for once purchase a copy of the Pittsburgh *Post*.

CONDENSED TELEGRAMS.

Henry Monzane, a noted burglar, was killed by officer Thomas Scott, of Brooklyn, New York, on Sunday. He first fired a revolver at the officer, who discovered him under suspicious circumstances, and the fire being returned, Monzane instantly fell dead. The officer was unhurt.

The strike of the carpenters, coopers and painters of Philadelphia, for higher wages, took place yesterday.

The projected strike of spinners at Manchester, New Hampshire, for ten hours a day, has been abandoned, and the work proceeds as usual in the factories.

The United States Supreme Court adjourned yesterday, for want of a quorum.

Henry R. Linderman's nomination, as Director of the Mint at Philadelphia, was confirmed by the Senate yesterday.

The reported match for a prize fight between Joe Coburn and John C. Heenan arose out of an altercation between the parties in a New York gambling saloon, which the police opportunely stopped. It is stated, however, that the match is likely to be made.

An iron war steamer, named "Gen. McCullom," designed for the service of the Mexican Liberals, left New York on Tuesday, for Tampico, with two artillery batteries, ten thousand stand of arms, four tons of powder and a large quantity of fixed ammunition. Several Liberal army officers were on board.

Brooks and Tally, charged with the murder of an old lady near Clear Spring, Jackson county, Indiana, some months ago were taken from the jail of that county on Saturday night last, by a mob, and hanged.

Late Mexican advices report things as fast approaching a crisis. The Liberals were almost under the walls of the City of Mexico, preventing supplies entering, and over three hundred persons were in prison for expressing sympathy with the besieging forces and failing to pay their quota of forced loans. Maximilian's Governor had resigned. The siege of Puebla had commenced. Maximilian's army at Queretaro was completely environed, and the people of Vera Cruz favored a surrender to the Liberals concentrated outside. The whole French squadron of war vessels had arrived at Havana from Vera Cruz, making an imposing display.

The Russian-American treaty excites considerable discussion, and it is stated the present feeling is against ratification.

At the meeting of the United States Supreme Court, at Washington, yesterday, C. B. Parsons, of Cleveland, was appointed Marshal.

Thomas A. Bayard (son of Hon. James A.) will probably be appointed Senator from Delaware in place of Riddle, deceased.

A fire in Johnston's Printing Ink establishment, in Philadelphia, yesterday morning, resulted in a loss estimated at $5,000 on which there was no insurance.

A "Louisiana Tiger" named Kelly attempted to rob a pawn broker shop in Philadelphia, on Sunday morning, and when surprised by the proprietor showed fight and beat him with his "jimmy." The "tiger" was caught and caged.

The new railroad machine constructor has been tested in California, and is considered a complete success. The machine levels track, lays ties, deposits rails and nails them to their places. It is estimated (says a dispatch from San Francisco) that with a complement of two men it will do as much work in a day as two hundred men without the aid of the constructor.

Lake navigation is re-opened. The steamer Evening Star made her first trip yesterday from Sandusky, and will run regularly between that city and the Islands of Lake Erie.

The livery establishment of S. Warren & Co., and six frame buildings adjoining, in Toledo, Ohio, were destroyed by fire on Monday morning. Loss, $23,000; insurance, $10,000.

A meeting of the citizens of St. Louis was held last night to devise means for the immediate rebuilding of the Lindell hotel.

The dye wool mill of Harvey, on the outskirts of Brooklyn, New York, was burnt on Saturday. Loss, $40,000; insured.

Governor Throckmorton, of Texas, has telegraphed to the effect that that State will immediately reorganize under the reconstruction act.

The special committee of the New York Board of Councilmen have reported against the Park site for a Post office.

Alfred A. Clark, New York Custom House clerk, has been arrested as the author of the forged pay roll last week, by which he realized $1,000.

The Internal Revenue officers of New York continue to seize whisky. Yesterday they took possession of four hundred barrels, which had been relieved from a bonded warehouse under transportation bonds believed to be worthless. By a similar process it is thought from three to four thousand barrels have been removed and realized on.

The steamer Costa Rico, belonging to the Pacific Mail Steamship Company, sailed yesterday from New York, for China, with a full and valuable cargo. This vessel is sent out for the purpose of making the connection between Shanghai and Yokohomo.

Isaac H. Sturgeon and John O'Fallon Farrar have been unanimously elected President and Vice President of the North Missouri Railroad.

The California delegation in the House of the Thirty-ninth Congress, Messrs. Bidwell, McRuer and Higby, sailed for California in the steamer New York yesterday. McRuer and Higby are candidates for re-election and Bidwell is a candidate for the nomination for Governor.

Walke, Union candidate, was elected Mayor of Circleville, Ohio, yesterday, by sixty-seven majority—a large Union gain.

TELEGRAPHIC ARRANGEMENTS.

Commercial News from All Parts of the World.

ASSOCIATED PRESS OFFICE, }
145 Broadway, New York, April 1, 1867. }

To all Agents and to the Press of the Country:

The arrangements have now been completed for the distribution throughout the United States of the commercial news from all parts of the world, collected at New York by the Associated Press of this city. The Western Union Telegraph Company have entire charge of the machinery for the distribution, and its agents will receive application from all persons who may desire to obtain the news for business purposes. The sales for newspaper publication will be continued as heretofore in charge of the Associated Press, but the new branch of business now proposed will be under the direction of Gen. Marshall Lefferts, 145 Broadway, New York, who has been placed by the Telegraph Company at the head of the new bureau, to whom all communications of importance should be addressed. Agents will be appointed for all the principal cities and towns of the Union, as soon as practicable, and those wishing to subscribe can apply to the managers of the telegraph offices for information. The commercial public will now be furnished with reliable intelligence at a very moderate price, and with the absolute certainty of being protected alike against monopolists and speculators. The agents of the Associated Press at all points will do what they can to facilitate the work of distribution, both for the sake of public convenience and the interests of their principals.

Chili and Peruvian Privateers—The Difficulties in Columbia—The Negotiations with the Republics.

NEW YORK, April 1.—The steamer Henry Chauncey, from Aspinwall, brings $898,000 in treasure.

The Panama *Star* of the 23d ult. says: The steamer R. R. Cuyler, detained in New York on suspicion, is now sailing under the flag of the Columbian Government, under the name of Rayner. She had received six torpedo boats on board, and started for Jamaica. The *Star* thinks the suspicion that she is a Chillian privateer well founded, and that she will prey on the Spanish commerce off Porto Rico and Cuba. It also says it is believed the Columbian Minister at Washington has allowed himself to be imposed on by a party of Chillian agents, to enable them to evade the United States neutrality laws.

The notorious steamer Meteor has turned up at Calloa, and it is presumed she will become a Peruvian or Chilian privateer.

The difficulty between the President and Congress of Columbia continues.

The revolution in Guatemala had been entirely suppressed.

Other republics were tranquil.

The negotiations between the South American republics and the European powers had not yet reached a truce, nor has the proposition of the United States for a conference at Washington been accepted.

The United States steamer Wateree arrived at Panama, from Calloa, on the 9th.

The United States sloop of war Jamestown was to sail for San Francisco immediately.

WASHINGTON, April 1, 1867.

FREEDMEN'S BUREAU IN MISSISSIPPI.

The Commissioner of the Freedmen's Bureau is in receipt of a report of the operations of the Bureau in the State of Mississippi, during January, submitted under date of Vicksburg, February 17th, by General A. C. Gillam, Assistant Commissioner, from which it appears labor was in good demand, and better wages are offered than last year, while it is stated that those who treated the freedmen unfairly, cannot now obtain bond. The Commissioner who is in charge of the District of Natchez states that while there is some destitution among freedmen, the alarming destitution and suffering is among the white population. Of the two classes the former is better situated, being able to do that kind of work generally in demand. Their wants being few, their expenses are small. There were but few complaints being made to the bureau. Schools reported in a flourishing condition, are well sustained, and freedmen are doing much to support them. In conclusion, Gen. Gillam remarks: "There is no opposition from the more intelligent classes to the education of the freedmen, but, on the contrary, many of the planters have applied for teachers, and are willing to permit the necessary buildings for schools." General Gillam is convinced that all prejudice against the education of the blacks will disappear. The demand for labor still continues unabated. Thousands of colored people are brought to this State from the older and less fertilized States of Virginia, North Carolina, South Carolina and Georgia. Accounts of destitution and starvation are, so far as they refer to Mississippi, exaggerated. During January no rations were issued to citizens black or white, except those in the hospital.

ANOTHER INDIAN MASSACRE.

A letter from the wife of a distinguished army officer, at St. Louis, received here, confirms the report of the capture of Fort Buford, at the mouth of Yellow Stone. Colonel Rankin, his wife and children, and the whole garrison were slaughtered, in all eighty souls. Colonel Rankin had represented, for at least fully four months, his inability to resist a prolonged attack by the overwhelming force of Indians brought against him and position. Private letters say he anticipated his fate, and made good his promise to his friends, that he would defend his position to the last man. He repulsed with his small force the attacks of 2,000 or 3,000 Indians, killing 300 and wounding over 1,000, before he was overwhelmed. It is generally supposed Colonel Rankin shot his wife to prevent her from falling into the hands of the Indians.

THE GEORGIA FREEDMEN.

The Freedmen's Bureau have received a letter from the Assistant Commissioner for Georgia, relative to affairs in that State. He reports that there are now 145 schools in operation, with 145 teachers and 7,847 pupils. Some difficulty has been experienced in different parts of the State in settling difficulties between freedmen and their employers, growing out of refusal by the latter to pay the wages promised. Even at this time it is almost impossible to obtain justice for colored people in minor courts. In the higher courts there is evidence of an increased disposition to administer the laws justly.

About one million at five per cent was bid for at par, and about thirty-one millions at six per cent, were bid for from par to one half per cent. For premium the bids exceed the amount wanted by about eight millions of dollars; Drexler & Co., Jay Cooke & Co., and Clark & Co., get about sixteen millions at premiums ranging from ½ to 1-16 per cent.

STATE ELECTIONS.

The Connecticut Election.

HARTFORD, April 1.—The vote of Hartford is—Hawley, 2,746; English, 3,216. Majority for English last year, 479. Hubbard's (Democrat) majority for Congress in Hartford is 507. Deming is probably defeated by about 200 majority.

NORWICH, April 1.—For Governor: Hawley, 1,444; English, 1,135. Member of Congress: Starkweather, 1,448; Martin, 1,115.

NEW YORK, April 1—10 P. M.—Returns from some sixty towns in Connecticut give English (Democrat) about 660 majority for Governor. The result is close and doubtful, but the Democrats claim the State.

LATER.

NEW HAVEN, April 1.—New Haven county complete: Hawley, 8,553; English, 10,045. English gains 153 in the county, compared with last year.

HARTFORD, April 1.—From returns received from all but thirty-two towns English leads Hawley by 300. Both branches of the Legislature are probably Republican.

STILL LATER.

NEW HAVEN, April 1.—English (Democrat) is probably elected Governor by 500 majority. The Democrats carry three Congressional districts, viz: Hubbard, in the 1st, Hotchkiss, in the 2d, and Wm. H. Barnum, in the 4th. The Republicans elect Starkweather in the 3d district. The Democrats will probably have one of a majority in the State Senate. The House will be Republican.

Ohio Municipal Elections.

COLUMBUS, O., April 1.—In the city of Columbus, John G. Bull (Democrat) was re-elected Mayor by 567 majority, a Union gain of 502 over his election last year. The Councils stand, twelve Democrats and six Union.

In Circleville, Judge Walker, Union, was elected Mayor by 67 majority.

CINCINNATI, April 1.—The Municipal election passed off quietly. The whole Union ticket is elected by about 3,000 majority.

TOLEDO, April 1.—At the municipal election to-day, the entire Union Republican city ticket, headed by C. A. King for Mayor, was elected by 300 to 500 majority. They also elected ten out of twelve Councilmen. This is a substantial Union gain on the vote of last fall.

Michigan State Election.

DETROIT, April 2.—The vote cast to-day was very light. The Republicans are generally successful and will elect their State ticket and a majority of the delegates to the Constitutional Convention. This city gives a small Republican majority. The county was carried by the Democrats.

POLITICAL.

Conservative Convention at Nashville—A Pennsylvania Colored Man on the Situation—Mass Meeting in Georgia Irrespective of Color.

NASHVILLE, April 1.—A Conservative Convention was held in this place to-day, Judge Grant presiding. Judge Whitworth and Mr. Williams, a colored man, were the principal speakers, the former enforcing the views he recently put forth in a letter respecting the policy of accepting the situation, fully recognizing the negro as a citizen and voter, and inviting him to participate in political meetings, and Mr. Williams taking the ground that the owners of the soil and the laborers were identified in interest and should co-operate for the good of each other and the country. He believed Southern men were the negroes best friends. Williams is from Pennsylvania and has served in the federal army. The convention adopted a resolution requesting colored voters to hold a meeting and appoint delegates to the State Convention, which assembles here on the 16th, to nominate a candidate for governor.

SAVANNAH, April 1.—At a mass meeting of citizens to-day, a large majority present were colored. Addresses were delivered by Ex-Governor Johnson, Colonel Stone, Dr. J. J. Waring, Colonel H. S. Fitts and others; also, by Rev. J. M. Silas and J. G. Campbell, colored preachers. The following resolutions were adopted: That we recognize Congress as the supreme legislative power of the nation, and that the laws it has passed to effect our restoration we will observe and maintain; that we recognize the progress of ideas in the enfranchisement of the colored race; that with mutual forbearance we will stand shoulder to shoulder in organizing the Government and maintaining the national unity of the United States one and inseparable; that the education of the whole people is of the highest importance for the prosperity and freedom of a republican government, and will henceforth earnestly labor for the education of every citizen of the State; that we respectfully and earnestly request that the military commandant of the third district order a general registration and election at the earliest practicable moment, for a convention to reorganize the State of Georgia, in accordance with the plan of Congress. After three hours and a half occupied in speaking the meeting adjourned. Everything passed off quietly, and the greatest order prevailed.

Another Negro Difficulty in Charleston—Military Called to Interfere.

CHARLESTON, April 1.—Another street car difficulty occurred to-day. Two negroes got inside a street car, and refusing to leave were ejected by the police. They forcibly resisted, but were overcome and lodged in the station house. Thereupon negroes outside became disorderly, using brickbats and threatened to rescue them. In the melee several parties were injured. Information was promptly sent to headquarters and a squad of regulars interfered and took charge of five of the ringleaders. The matter will be investigated before the Provost Court to-morrow.

Ex-Confederate General Murdered.

MEMPHIS, April 1.—Ex-Confederate General Smith P. Bankhead, lately City Attorney, was assaulted by an unknown assassin on Saturday night and beaten to death. Suspicion points to a policeman lately discharged at his request.

Pennsylvania State Agency at Washington City.

During a brief stay at the Capitol last week, we visited the office of the Pennsylvania Military Agency for settling the claims of her soldiers for bounty, back pay, pensions, &c. Our fellow-citizen, J. H. Stewart, Esq., late Sheriff of Allegheny county, is the Agent. We were surprised to find the office not a sinecure, as we had been told, but one requiring much labor and a familiarity with the laws. Mr. Stuart, assisted by Col. Cook, (also a Pennsylvanian,) has thoroughly systematised the business and has numerous books with rulings and headings adapted for registering and classifying the various kinds of claims, whether for arrears of pay, bounty, additional bounty, pensions, &c. From these records we easily gleaned the following list of claims filed, viz:

Claims for arrears of pay and bounty	3,090
" " pensions	877
" " additional bounty	2,752
	6,719
Of these there have been adjusted	1,719
Leaving yet to be settled	5,000

These demonstrate the utility of the agency as a benefaction wisely extended to our soldiers. Additional claims are being constantly presented; they are promptly arranged and registered at the agency and filed for adjustment at the Second Auditor's office in the Treasury Department, where more than one thousand applications per diem for additional bounty are presented from all the States, in addition to the ordinary business of that bureau. So numerous are these claims, that the Auditor finds it impossible, except by general circular, to acknowledge their receipt. Any delay, therefore, in Pennsylvania claimants hearing the fate of their application, is from no fault of Mr. Stuart. He watches carefully the progress of the examiners, and as soon as possible communicates the results to his clients all over the State. Both he and Col. Cook have their hearts in this business, and will do all in their power to expedite the examination and settlement of every claim on the voluminous records of the agency.

Special Meeting of Councils.

Last evening both branches of the City Councils held a special meeting in their respective chambers in City Building, to take action regarding a bill recently introduced in the Legislature, to authorize the Pittsburgh Gas Company to collect from the people or gas consumers the government taxes imposed upon that corporation.

COMMON COUNCIL.

There were present Messrs. Barnhill, Beck, Brush, Coursin, Fore, Hare, McQuewan, McClelland, McGowan, O'Neill, Reed, Roberts, Robb, Seibert, Sloan, Tomlinson, Torley, Verner, Weldon and President Steel.

The President stated that the meeting had been called for the purpose of taking into consideration a certain Senate bill, empowering Gas Companies to levy the Government tax upon consumers.

Mr. Slagle, the City Solicitor, was then called upon and stated that while in Harrisburg, last week, he had been informed by Senator Graham that a bill had passed the Senate which would double the price now paid for gas. Mr. Bigham had charge of the bill, and is he appeared very anxious to pass it, Mr. Slagle did not express any opinion upon it, although he thought the increase entirely uncalled for, and unless speedy action was taken the bill would pass the House.

Mr. O'Neill did not believe that the bill would increase the price of gas to double the amount now paid. The company should decrease the price of gas, and an increase at this time would be a sheer imposition. The company had continued to pay large dividends when coal and labor were much cheaper than at present.

Mr. Coursin thought that there must be something beyond a provision providing that the tax should be levied upon the consumer.

Mr. O'Neill offered the following preamble and resolution:

WHEREAS, It has been stated that there is now before the Legislature, a bill which proposes to materially increase the price of gas to consumers in the city of Pittsburgh, by allowing the Gas Company to collect from said consumers an advance in the price now charged equivalent to the United States tax on gas; and whereas, it would be a gross imposition on our people to require them to pay such an advance, inasmuch as we are informed that said tax will cease on the first of July, and further because the profits of said company are already sufficiently large to pay those holding its stock handsomely for their investment, therefore, be it

Resolved, That we, the representatives of the citizens of Pittsburgh, in select and Common Council, do hereby protest against the passage of said bill and ask that our representatives at Harrisburg use all honorable means to secure its defeat.

The resolution was unanimously adopted and Common Council adjourned.

SELECT COUNCIL.

There were present: Messrs. Coffin, Crawford, Gallaher, Leow, McCarthy, McEwen, Morrow, Phillips, Shipton, Tanner, Thompson, White, Wilson and President McAuley.

On motion, the reading of the minutes of previous meetings was dispensed with.

President McAuley stated that he had called the meeting at the request of President Steel, of the Common branch, and was not prepared to definitely set forth the object for which the Council had been assembled.

The Clerk of the Common branch reported from that body the set of resolutions on the question alluded to by the President, which were unanimously concurred in.

Mr. Gallaher offered the following resolution:

Resolved, That the Council approve of the bill now before the Legislature of Pennsylvania, consolidating the cities of Pittsburgh and Allegheny and surrounding boroughs and townships into one western metropolis, and that we urge our representatives to support the same.

The resolution was unanimously adopted, and Council adjourned.

Allegheny Bulletin—No. 1.

MESSRS. EDITORS:—The manly spirit manifested by the patriotic Councils of this city, in rebuking the atrocious attempt to smuggle through the Legislature an act of consolidation and bury this fair city, with all its chartered immunities, under the "debris" of a neighboring corporation, is worthy of all commendation, the avowed object being solely for the purpose of swelling the population of Pittsburgh, in the future decimal enumeration, to a respectable figure, at the expense of Allegheny, by taking from her her very name, number and status as one of the cities of the Union. Now is not this cool on the part of the Board of Trade of our neighbor, and has it not the aspect in view of that self-constituted body, that the population of this city consists of "*mere cattle*" to be disposed of in the shambles of Pittsburgh at their pleasure, and for its aggrandizement alone, whilst our population is as great, if not greater, than her own, the forty-five thousand of Allegheny being a unit against the measure. But we may confidently look for the defeat of this impudent project of the Board of Trade, and her Senator, who is doing the work of that arrogant body, erected, as we understand, to look into into the bump affairs and trade of the city of Pittsburgh only. They will find there is another Senator who will vindicate the honor and preserve intact the identity of Allegheny, and we will, therefore, surrender to the Board of Trade their Senator Bigham, body and breeches, to do their work if he can.

Letters from well informed sources at Harrisburg assure us that no bill will be passed this session, or at any other, without a provision for the assent of this city by a popular vote of the people, which secures the independence of Allegheny, with her potent name and existing charter, from the gripe of our neighbor over the water.

It is understood that a newspaper, to be called the *Allegheny Advocate and Expositor*, will, ere long, be established in this city, under the auspices of gentlemen in every way competent to conduct a publication and insure its duration, which only requires the exercise of the spirit of our citizens, which the Councils have, in their recent action on consolidation, indicated in the manly attitude they assumed against that insulting measure.

A resident of Allegheny and one of your subscribers.

Poor Donnelly.

Arthur Donnelly was once a favored guest at the "Washington House" of James Moran's, in the Diamond; but in the course of a "conviviality" one evening he quarreled with a fellow-boarder, and according to his own account was badly used. Prosecutions followed in which Arthur had bad luck. He was required to pay costs, and having neither money nor friends, there was no recourse left for him but to go to jail. Whilst imprisoned his spirit of revenge became intensified, and regardless of threats to send him "over the river for perjury," he prosecuted Moran for selling liquor on a certain Sabbath day, Donnelly himself, as he swore, paying for the "drinks" for himself and friends. In this case he also failed to secure a conviction, and was only saved from being made to pay a proportion of the costs by the sympathy felt for him by the jury. He was finally released from jail, but following up his purpose of revenge, Moran has turned the tables on him. Yesterday morning, Arthur was seized by the Sheriff on a *capias*, suit having been entered against him for malicious prosecution and false imprisonment. Information was also made against him before Alderman Lynch, for perjury, Moran alleging that he testified falsely in the Court. To answer this charge a commitment was lodged. Donnelly expressed himself as determined not only to pursue three prosecutions which he had already instituted against Moran, but to bring "three and twenty" additional, if he could get the parties who drank at Moran's on Sunday to testify, broadly asserting that the house was kept on Sunday as on any other day; swore that the front door was not opened. In his present position behind the bars, we judge he will be estopped in his purpose, and may, upon calculating the chances and the probable cost, conclude that the odds are against him and abandon his purpose.

In calling the attention of our readers to another letter from Dr. Robert Hunter—in continuation of his remarkable series on affections of the Throat and Lungs—we cannot do better than quote from an editorial of the New York *Tribune* on the same subject. The *Tribune* says: "To such as are not absolutely impervious to new ideas we would commend the series of letters by Dr. Robert Hunter, which have from time to time appeared in our columns, with regard to the nature, symptoms and curability of consumption. The fact that the author is a regular and thoroughly educated physician, does not give those letters their value—that is founded on their combination of medical knowledge and learning with practical common sense, a quality which commends itself to the judgment of all who possess it. We think few can read them and resist the conviction that the author speaks from knowledge."

Coroner's Inquest.—Coroner Clawson yesterday held an inquest on the body of the female child found in the Methodist graveyard on Sunday afternoon, the particulars of the finding of which was published in yesterday's issue of the GAZETTE. Dr. McCook held a *post mortem* examination on the remains, and gave as his opinion, based on the fact that the head was flat and yielding, that the child had died in utero. A verdict in accordance with the facts was rendered.

The Erie and Pittsburgh Railroad Company want the privilege of extending their track from New Castle to this city.

Moving Day.

Yesterday was the First of April, and of course was attended with all the characteristics of "fleeting day." People ran hither and thither with all sorts of household goods upon their backs, while everything in the shape of an equine animal was in demand even at such extravagant figures as five dollars per load. Animals who never trotted before anything less aristocratic than an ebony barouche or a luxurious carriage, were forced to toil in the shafts of faded and crazy looking vehicles, packed with a thousand odds and ends, with elegant gentlemen who rejoice in degrees perched on top, very ungracefully holding the lines, while here and there was to be met a youth, proportioned like Master Slender, trundling a wheel barrow, while a fussy old lady, reveling in the importance of the occasion, trudged by his side and "steadied" the pyramid on the barrow. How many quiet, easy homes were yesterday, in a few hours, transformed into abodes where chaos reveled in confusion, while mild mannered wives were driven into paroxysms of rage, over broken mirrors and shattered time pieces. Speaking of the demolition of household goods, reminds us of the fact that Daniel Cully had a bureau almost broken to atoms by being thrown from a wheel, barrow by John Conners. Cully made an information before Alderman Lynch against Conners, charging him with malicious mischief. The accused was arrested and made to give bail in the sum of $500 for a hearing to-day.

A Suspicious Visitor.

A few minutes before eleven o'clock last night, Mrs. Tuttle, residing at 48 Smithfield street, above the tailoring establishment of S. Williams, went into the cellar, accompanied by two other ladies, for the purpose of getting some kindling wood. After procuring the fuel the lady mentioned proceeded into an inner apartment, where she discovered a man crouched down behind an empty dry goods box and some straw. When he saw her he attempted to screen himself by throwing himself prostrate among the straw.

With a heroism not to be expected under the circumstances, the lady returned to her companions, from whom she withheld the knowledge of her discovery until the trio had reached the upper story. The husband of one of the ladies, who was sleeping in an upper chamber, was awakened immediately and sent in quest of the police. When Lieutenant David Campbell, of the night force, explored the cellar a few moments after, no trace of the mysterious individual was to be found. He had evidently escaped, in the interval between his being discovered and the arrival of the watchmen, through a window in the front which made his egress a matter of little difficulty. He doubtless intended to rob the house, which intention was happily frustrated.

Disorderly House.

Mrs. Ann Kelley occupies a tenement in the Third ward. In the opinion of Dennis Murphy, Ann does not conduct her domestic affairs in accordance with his standard of propriety, and hence they have become enemies. Dennis appeared before Alderman Lynch, yesterday, and after being duly sworn, deposed and said, that Mrs Kelly's house was the scene of frequent brawls, especially during the silent watches of the night, preventing himself and others from gaining their needed repose. Ann was brought before the magistrate, who held her in $500 to answer at court. The lady in furnishing the security, gave an opinion which is not found either, in Blackstone, Coke or Littleton, to the following effect: "That a person had a right to manage their household as they saw proper, without any outside interference." If the above is not law, it sounds wonderfully like justice.

The Pittsburgh Female College.

A few days since we announced that the Spring and Summer term of the Pittsburgh Female College would open on Tuesday last. Since then two hundred and fifty scholars have been enrolled, and as a large number are expected soon to enter, the present term of this unequalled place for the education of girls promises to be the most prosperous and brilliant in its history. Under the admirable management of Rev. President Pershing, assisted by the talented faculty, the Pittsburgh College deservedly occupies a high place among the educational institutions of the country. For the information of those having daughters or wards to educate, we would state that the College has ample capacity for receiving many more scholars, although applications for admission should be made without delay.

Byronic.

Annie Byron, nothing to the author of "English Bards and Scotch Reviewers," was before Alderman Taylor yesterday, charged with malicious mischief. The offense consisted in Miss Byron breaking up a single bedstead belonging to a neighbor named Mary Rogers. Annie stated, by way of extenuation for her act, that she had thought the piece of furniture valueless and being in sad need of kindling wood, had demolished and burned a portion of the couch. Her want did not suffice to appease the indignation of Mary, and the defendant was therefore forced to enter bail in the sum of $300 for a hearing on Wednesday.

Nocturnal Intruders.

A little before one o'clock yesterday morning Mr. Edmund P. Grainer, residing in McClure township, near Manchester, was awakened by a noise in the rear of his residence. On going to the back window of his chamber he discovered two men in the act of climbing over the roof of his kitchen. He turned back to get a revolver that was in a trunk at the head of his bed, but in crossing the floor his foot caught on, and he tumbled over a chair which fell noisily to the floor. The tumult thus caused, doubtless, reached the ears of the intruders, who immediately decamped, leaving behind them, in the yard, a new hatchet with the name of James Ryan branded on the handle.

On His Muscle.

William Dolohan rejoices in the belief that he is a very strong man, that, in fact, he only lacks the opportunity to relieve Hercules of the weight of our planet. Being desirous of displaying his muscular ability, he yesterday attacked an honest Celt named Richard Dunn, who, in a wonderfully short space of time was pummelled in a shocking manner. Dunn determining that he should not be done up in that style without redress, repaired to the office of Alderman Taylor, where he charged William with committing on his person an unprovoked assault and battery. About noon Wm. was captured and after a hearing was committed, in default of $300, to the county jail where he will have abundant opportunity of developing his latent strength.

In Durance.—An unfortunate wight, named Julia Kane, was arrested last evening on Penn street, in a state of intoxication and brought to the lock-up. She states that she arrived in this city on the first of January and has served three terms in the county jail since. Since her advent among us she has only enjoyed her liberty for twenty-four hours, adding all her free moments together.

Taxes.—All who pay their taxes to the county Treasurer between May 1st and August 1st, will be allowed a reduction of five per cent. If payment is made between August 1st and September 1st, no reduction will be allowed. If not paid until after the latter date (September 1st,) *ten per cent. will be added*. Tax-payers will save money by bearing this in mind and acting accordingly.

Committed to Jail.—An individual rejoicing in the historical appellation of Lafayette Johnston was before Alderman Jas. N. Taylor yesterday charged with wilfully obstructing the execution of a legal process. He endeavored to put in a strong defense, but it proved impotent and he was committed to the dreary confines of the County jail to await trial.

Fire Record.—To Samuel T. Paisley, Superintendent of the Fire Alarm Telegraph, we are indebted for the annexed: During the month of March there were eight alarms of fire, none, however, being general. The losses incurred amounted in the aggregate to $675; insurance, $375. Blows struck on the big bell three hundred.

Bank Statements.—A large portion of our second page to-day is occupied with the Quarterly statements of the National Banks of Pittsburgh and Allegheny. All present a healthy balance sheet, showing that their affairs are well managed. The mercantile community are referred to the statements as they contain much valuable information.

Run Off.—A horse attached to wagon on Wayne street took fright, yesterday afternoon, and ran off. The animal was caught near the bank of the Allegheny river, but the vehicle was shattered considerably against a stone wall in rear of the Pittsburgh, Fort Wayne and Chicago Railroad Company's office.

Important Meeting.—The Allegheny County Association will hold a very important meeting this evening in the session room of the First Presbyterian Church. As the business to be transacted is of special interest and importance to all the members, a full attendance is earnestly urged.

The Pittsburgh Gazette.

TUESDAY, APRIL 2, 1867.

THE fate of the CONSOLIDATION BILL will doubtless be determined this week. We are fully of opinion that the measure ought to prevail, and that the welfare of the inhabitants of the other municipalities would be promoted thereby to as great an extent as the welfare of the people of Pittsburgh.

FREE TRADE.

In the city of New York a formidable Free Trade League exists. Its membership is composed mainly of the resident partners and agents of European mercantile and banking houses, though a considerable number of Americans engaged primarily in foreign commerce belong to it. The Secretary of this association is an Englishman, by name Mr. ROBERT PELL, who is connected with the "London and Liverpool Globe Insurance Company." In his capacity as Secretary, he is flooding the country with documents designed to show that great advantages would result from abandoning entirely the doctrine and practice of Protection to Domestic Industry. Perhaps we should express the fact more clearly by saying the documents are intended to mystify and mislead the people as to what Free Trade really imports. Among other documents is one entitled a "Declaration of Principles," which we quote in full:

FREE TRADE PRINCIPLES VS. PROTECTION TO LABOR.

1. HOLDS THAT, Every man has a natural right to sell the produce of his labor to those who will give the most for it, and to expend the proceeds in the way which he himself may judge most serviceable; and that just as the total denial of this right constitutes Slavery, so a partial denial thereof is a partial Enslavement.

2. ACQUIESCES In taxation and duties levied to meet the needs of Government, but denounces as pure robbery and tyranny, all taxation for the benefit of special **classes.**

3. HOLDS THAT, One of the truest and most comprehensive means of preventing pauperism, is to remove all obstructions in the way of the free exchange of the produce of labor; and to allow men to pursue their own welfare in their own way, so long as they do not infringe on the rights of others.

4. THAT, The "Protective System" is a form of ignorant national selfishness which defeats its own ends; that it is contrary to the wise and benevolent laws of Providence; that it partakes of the odious and iniquitous peculiarities which distinguishes class legislation; and that it is a fertile source of social, sectional and international discord.

5. THAT, The "Protective System" diverts capital and labor from the most efficient occupations to others proved to be less efficient by their need of artificial support; that it results in waste; that it injures the "Protected" classes by diminishing their markets, and by the fluctuations and incertitude which attend it.

6. THAT, The more we import, the more we encourage Home Industry, on account of the employment it finds in producing commodities to exchange for those which we receive.

7. THAT, A people is most enriched by engaging in those occupations for which it possesses advantages over other Countries, and exchanging its productions for those for which those Countries possess advantages over itself.

8. THAT, Free Trade with all the world will conduce to the highest interests of our Country, and that this policy is pre-eminently worthy of the American People, who should be foremost in breaking down all restrictive barriers, social and commercial.

Let us consider these principles in the order in which they are propounded.

1. The definition given to slavery is partial, and therefore misleading. Slavery does not consist primarily in the denial of the right to sell the produce of one's labor, and to expend the proceeds at pleasure. All women in coverture, and all minor children, are in precisely that condition; but they are not in slavery. Only a Free Trade theorist would suspect them of being so; and this shows how incapable he is of dealing with a problem in regard to which he professes to have wisdom vouchsafed to no other men.

In 1808 Congress ordained what is known as the Embargo. It lasted nearly two years, and was succeeded by the ordinance of Non-Intercourse, which lasted till the declaration of war in 1812. Under these two acts regular foreign commerce was entirely suspended for four years. The Federalists denounced these measures as harsh and oppressive; but the grand discovery that the people of these States were actually reduced to slavery thereby, was reserved as the crowning glory of the Free Trade League of New York in the year of grace 1867.

2. With what consistency do Free Traders "acquiesce" in a system which is condemned by all their essential elementary principles? and which must be extirpated, root and branch, before the system they espouse can have any existence whatever? Any impost, no matter for what purpose levied, is a restriction upon trade, and operates protectively upon the corresponding domestic production. Free Trade is not a question of degree, but of kind. An intelligent Free Trader who professes to "acquiesce" in custom-houses, and revenue duties, is a hypocrite. He is not deceived; but seeks to deceive others.

3. This is one of those half-truths that are more mischievous than unadulterated errors. Look at individual cases first. Most of the poverty, and a large part of the pauperism, of each country, arises out of the fact that "in the free exchange of the produce of labor" the keen and selfish get the advantage of the other sort, and drive them to the wall. How this evil is to be remedied the mass of work people would like to know. Essays have been made under various forms of association to find a remedy; but as yet the confiding have obtained no effectual deliverance from the rapacious. Now, take a broader view. A nation that has much the largest accumulation of money capital, so that the prevailing rate of interest is low; that has a redundant population, so that manual labor is cheap; and that has practically multiplied this population by the introduction, on an extended scale, of machinery of the best descriptions, can always undersell a nation that has dear capital, sparse population, and comparatively little machinery. Put two manufacturers side by side. One pays from three to five per cent. for the use of money, three dollars a day for labor, and has machinery that quadruples the production. The other pays from seven to twelve per cent. for money, five dollars a day for labor, and has machinery that only doubles the production. No business man can doubt which of these will force the other to stop or go into bankruptcy. If instead of being side by side, the one first described is in England and the other in this country, the problem is only varied by the difference in transportation and exchange.

4. When Columbus discovered America, the aborigines were Free Traders. They rejected entirely that "form of ignorant national selfishness," the "Protection System," and trusted to what Mr. Pell facetiously calls "the wise and beneficent laws of Providence." It is manifest what those laws did for them; and it remains to be proved that those laws have any other tendency than was exhibited in their case. No civilized or semi-civilized nation has as yet put Free Trade into operation on its own account. Those nations which declaim loudest in behalf of "the wise and beneficent laws of Providence," take good care to admire them at a distance, like the New York Free Trade League, which acquiesces in revenue duties—a convenient phrase, under which they are able to profess one thing and do another. The nation that combines within itself the advantages of the cheapest capital, the most redundant labor, and the best machinery, can offer Free Trade to all other nations; but the nation that accepts it in deed and in truth will soon have all the blood sucked out of its veins.

5. Protection finds its vindication in the fact that all the advanced nations have been built up by it. In England, France, Holland, and most other European nations industries now exist and flourish which were called into being by Protection, enforced beyond any example furnished in this country. It is mainly in respect to these industries, the creatures of "artificial support" that they now banter us with the delusion of Free Trade.

6. Nothing is more preposterous. Let a man go upon the principle that the more he buys and consumes, the more he increases his ability to pay, and he will soon find the Sheriff after him with the sharpest kind of sticks. The men who adopt that rule of action are first spongers and then paupers who plague society. The men who come to competency or wealth, are they who buy and consume less than they can pay for, leaving a balance on the right side at the end of each succeeding year. A nation is but an aggregation of individuals. It cannot get rich by running into debt. It cannot accumulate by buying and consuming all it can get credit for, trusting to pressure for payment to stimulate to increased industry. This is the crafty pretext by which greedy store-keepers not unfrequently absorb the lands of prodigal farmers. Foreign merchants, cosily domiciled in New York, desire to play this game on a large scale, and the Free Trade League is the stool pigeon by means of which they expect to take in and "do" the flats.

7. That depends on precisely what is meant. The United States has pre-eminent natural advantages over all Europe in the various sorts of production that flourish there. In particular pursuits each European nation may have artificial advantages over us. Europe has been settled a long while, and has many things done we have yet to do. Mainly forests have been cleared away, lands under cultivation, roads made, habitations built, colleges endowed, wealth accumulated. Mechanical and manufacturing science has been developed; that is, the people have advanced from ruder industries to higher—to those that pay better because more intellect is required in conducting the processes. The Free Traders, as we understand them, insist Americans shall be content with the more primitive and least remunerative employments, under the plea that they "possess advantages over other countries" in those departments. Doubtless America surpasses Europe in natural advantages for growing beef, pork, wheat, corn, cotton, tobacco, and such like. But America surpasses Europe in natural advantages for producing gold, silver, lead, copper, iron, wine, oil, and many other commodities. What Protectionists demand is that we shall develop and utilize all our natural advantages, and by the same means which led England, France, Holland and Belgium to greatness; that whatever knowledge Europe possesses that can be domesticated here, and made subsidiary to the national growth, shall be brought over; that Asia shall be put under like contribution; in order that none of the gifts of Providence, hid away for ages in this continent, shall run to waste, but be made to help the progress of the human race. It may suit Europe to hold us back in that great career to which Providence beckons us, just as it suited the Philistines to bind SAMSON with withes, that he might not put forth his strength, but no matter how soft and tuneful may be the voice of the beguiler, it will be unavailing.

8. How long, gentlemen, do you expect to be in establishing Free Trade if you continue to "acquiesce" in custom houses and imposts for revenue? Do you not see you are shams and cheats? Under that qualification you wish, not to abolish duties, but to make the scale of duties suit your special ends? In the progress of the human race, it may be existing inequalities will disappear; that races and nations will be leveled up, so that in all endowments and culture suited to their various places of abode, there will be no superior and no inferior; and that the disposition to drive sharp bargains and take undue advantages will die out. If that happy day shall come, neither custom-houses, nor jails, nor penitentiaries, will be longer needed. Mr. Pell may, indeed, "acquiesce" in custom houses for the sake of revenue, but, if he chances to be honest and blessed with common sense, he will perceive that it will then be necessary to make "revenue duties" alike the world over, or they will perpetuate the practice of Protection.

RUSSIA has a considerable territory, far north, on the western side of this continent, extending from the Pacific ocean to the Arctic. It is a sort of elephant she does not know what to do with. She is anxious the United States should take it off her hands, paying the nice sum of seven millions for the privilege. Whether this territory is worth anything is a matter of doubt. It yields some peltries and fish, with plenty of ice; and would afford a few broken down politicians an exile out of which they could make a living at the expense of the national treasury. If there is anything else in the proposed bargain, we fail to see it. Perhaps, if the United States makes this purchase, Denmark may offer to dispose of her territory between Baffin's Bay and the Greenland Sea, for a like consideration. Some enterprising gentleman may then start the project of buying the North Pole and the Polar Sea.

JOHN BOYNTON, an eccentric philanthropist, died in Templeton, Mass., on Monday. He left the bulk of a large fortune for charitable purposes. Two years ago he gave one hundred thousand dollars towards establishing the Worcester county free school of industrial science.

In Dwight, Livingston county, Illinois, six hundred conversions have occurred.

AN ILLUSTRATION.

Recently we made the brilliant observation that "a good deal of human nature exists in most people." We instanced the stockholders and managers of the Pennsylvania Railroad Company. A fresh illustration of our penetration is afforded. A company was chartered some years ago to construct a railroad and run street cars between Pittsburgh and Allegheny. The tracks cross the St. Clair street bridge, on terms agreed upon by the managers of the railroad company and the managers of the bridge company. The railroad men insist they have to pay too much; and the bridge men refuse to ease off. So far the case is common enough.

The railroad men sought relief, by means of a new bridge, to be constructed from Sandusky street, on the Pittsburgh side, to Irwin street, on the Allegheny side. They had a bill, to grant them authority to build said bridge, duly prepared and brought before the Legislature. Of course the bridge men did not like this diversion of traffic, and the bill failed. We need not trace the connection between those two facts for the benefit of anybody who has common sense.

Will this denial of the right of building bridges to men who stand ready to accommodate the public in that way, lead to an agitation for a Free Bridge Building Law?

THE Scranton *Republican* characterizes Pittsburgh as "a town of forty odd thousand inhabitants." There is no remedy for this disparagement, which is constant, but in consolidation.

PITTSBURGH, May 19, 1866.

Messrs. Hostetter & Smith:

GENTLEMEN—During a visit to the West, last fall, I contracted chills and fever, which brought me to my bed, and finally terminated in typhoid fever, and confined me to my room for several months, during which time I was physically so prostrated that I almost despaired of ever recovering my health; having almost entirely lost my appetite for days, not being able to eat a morsel, added to which I was distressed with a reeling sensation in my head, and passed many sleepless nights—all from debility caused by my prostrate condition, brought about by fever. At this stage of my condition a friend recommended me to use your celebrated Stomach Bitters, but being morally opposed to the use of stimulants in any form, I at first declined, but afterwards yielded my prejudices, and, after taking the medicine for several weeks, my appetite returned, and with it I am rapidly regaining my former strength and vigor. My sleep (from the loss of which I have suffered much) has never been better than it is now, and the reeling sensation (before alluded to) has entirely left me. My bowels, which were much constipated and irregular, are now quite natural, and in fact, I am glad to say that I feel myself a new man, and tender you this testimonial of my appreciation of your valuable preparation, in order that others, suffering as I have, may avail themselves of its virtues, which prejudice kept me from enjoying for so long a period. I may also add that my physician, after seeing the beneficial effect of your bitters on me, recommended that I use them regularly.

Yours, very respectfully,
E. BOURNE,

THE INDIANS AND THE WHITE PINE.

Although long known to the aborigines of America, Dr. George W. Swett, of Boston, has brought into shape for convenient use, a most valuable preparation called POLAND'S WHITE PINE COMPOUND, which for a number of years has given great satisfaction in the cure of all those ailments dependent on an inflamed or irritated condition of the mucous membranes of the animal organism. *For gravel, diabetes, dropsy, chronic bronchitis, nasal catarrh, constipation,* when depending on a debilitated state of the intestines, it is one of the most valuable discoveries recently added to pharmaceutical medicine. It is likewise a most valuable compound for diseases of the kidneys and bladder generally, as any one can satisfy himself upon a single trial. Every one knows the healing virtue of the white pine for sores and ulcers, but Dr. Swett has gone to work and prepared from the sweet inside bark of that valuable tree a compound that will meet every indication where the pine would be valuable.

It is confidently recommended for the following ailments:

Diabetes in young or middle aged people;
Diabetes in old people;
Stoppage of the Urine;
The same difficulty in children during the night;
Gravel, Kidney Trouble in old people;
Ulcerated Kidneys, Ulcerated Bladder;
Discharge of mucus or pus, or blood from the bladder;
Bright's Disease of the Kidneys;
Pain in the Kidneys or Small of the Back;
Pain in the Bladder, Heat and Scalding;
Ask for POLAND'S WHITE PINE COMPOUND.

For sale by the gross, dozen or single bottle, at Dr. Keyser's great medicine store, 140 Wood street.

PROPOSALS.

PENNSYLVANIA
Agricultural Land Scrip
FOR SALE.

The Board of Commissioners now offer for sale 320,000 acres of Agricultural College Land Scrip, being the balance of the Scrip granted to the Commonwealth of Pennsylvania for the endowment of Agricultural Colleges in this State.

Proposals for the purchase of this Land Scrip, addressed to "The Board of Commissioners of Agricultural Land Scrip," will be received at the Surveyor General Office, at Harrisburg, until 12 o'clock M.,

On Wednesday, April 10, 1867.

This land may be located in any State or Territory by the holders of the scrip upon any of the unappropriated lands (except mineral lands) of the United States, which may be subject to sale at private entry. Each piece of scrip represents a quarter section of one hundred and sixty acres, is issued in blank, and will be transferable, without endorsement or formal assignment. The blank need not be filled until the scrip is presented for location and entry, when the party holding it can fill the blank and enter the land in his own name. Bids must be made as per acre, and no bids will be received for less than one quarter section.

The Scrip will be issued immediately on the payment of the money to the Surveyor General. On all bids for a less quantity than 20,000 acres, one-third of the purchase money must be paid within ten days, and the remaining two-thirds within thirty days after notification of acceptance of the bid or bids by the Board of Commissioners.

Fashions for Gentlemen—What Men Will Wear—Spring Styles of Coats, Vests, Pants, Hats, Shoes and Canes—English and French Novelties—The Cost of a Fashionable Toilette.

[From the New York Evening Gazette.]

As spring opens and the thick clothes of winter give way for those that are thinner, the gentlemen are naturally anxious to know how to make up a fashionable toilette. The trade is opening briskly, and on fair days the larger establishments of the city are crowded with well formed and fine looking gentlemen, who examine the new styles to secure the latest novelties. From the crown of a man's hat to the sole of his feet there is a complete change this year in the style of his dress. English fashions seem to prevail to a great extent, and we find the hat, the boot, the coat, watch-guard and cane are directly patterned after or imported from "the dear old mother country." There is better taste displayed this year in gentlemen's dress than heretofore, with one or two exceptions. We are glad to notice this improvement, for the tendency of Americans is to run to extremes.

COATS AND PANTS.

The English walking sack coat, made of both rough and smooth goods, falling gracefully to the hips, will be worn this spring upon the street as a business coat. The London frock coat, single and double-breasted, made of English meltons, smooth-faced goods, and cassimeres, the lapelles and collars of medium size, will be extensively worn as a spring coat, both for the street and the drawing room. The favorite colors are claret, brown, dahlia, and the blues. Vests will be made of the same material as the coats, while the pants will usually be lighter. A claret colored coat and vest, with light cassimere pants, not only makes a fashionable suit, but is also in very good taste. Numbers of gentlemen are ordering these for the spring season. For an evening dress, or opera coat, the plain black swallow-tail is fashionable, with vest of the same material. Silk velvet vests are out of fashion. The tendency now is to have evening suits as plain as possible, without even a velvet collar to the coat. The vests for evening wear are to be cut low, with only three buttons. Pants must be black and plain to match. There will be no facing of lapelles with silk or velvet, and save on wedding occasions the coat should be lined with black.

For pants, the light cassimeres, with half line stripes and a wide silk band, are in great demand. These are brown and white, blue and white, black and white—in fact of all colors. Shepherd's plaid and mixed Scotch cassimeres will be fashionable. All the stripes and plaids are exceedingly small and delicate, anything larger than this is "loud," and not fashionable. Pants will continue to be made small in the leg, much to the satisfaction of those who are able to display more developed calves.

Spring overcoats will be made of drabs, and light mixtures, steel-mixed and brown cloths.

Prices this year range about the same as last for custom made goods. A single breasted paletot, made of tricoe or pique cassimeres, can be had from twenty-seven to forty-two dollars; vests, made of cassimeres, from seven to eleven dollars; pants, from nine to twenty dollars.

FANCY SUITS.

Breakfast and smoking jackets which come to the hips, made of light cassimere, and lined with silk, are rapidly taking the place of the long dressing gowns. Shooting coats, pants, and vests, are made of velveteen, lined ducks, and corduroy. A velveteen street or business coat is decidedly in the fashion. It is a sack or business coat.

HATS AND CAPS.

For silk hats there is the bell crown low English hat. There is considerable crown to the brim, and they are much wider than they have been for years. Low crowns are worn altogether in preference to high ones. The Henrietta is a droop brim, fancy banded, half round top felt hat, with the colors of the famous yatcht inside. The Derby hat is always in demand; it has a round top and is stiff brimmed—will be much worn this spring. As a general thing caps are not in fashion, there being no call for them. The Parepa cap has what is called a melon top, pulls over in front, and carries a droop visor. It is made of the same cloth which gentlemen wear for their pants. In other styles of hats we have the soft dashes, the croquets, made of soft felt, the katy dids, Ristori and Richelieu.

BOOTS AND SHOES.

Button boots with box toes, and box-toed Congress boots with imitation buttons are in the hight of the mode. It may be well to explain that the box toe is the pointed English toe, with the inner sole worked up at the toe of the shoe or boot so as to lift up the upper leather, preserving its form and keeping it from the foot. These are all made of the best French calf skin, and can be had from $14 to $15. Boots are made in the same manner and of the same material. Patent leather is out of fashion. French calf being worn on all occasions. It should be remembered that Glaze's box toed shoes of all kinds are just in the hight of the fashion, and will be universally worn.

High topped boots for horseback riding, made of light French calf skin, with Glaze's box toe, worth twenty-five dollars a pair, will be fashionable for the Central Park, the Catskills, and summer resorts.

SHIRTS AND COLLARS.

White linen shirts with narrow stripes of blue, black and red stitched upon the edge of the cuffs, collars and each side of the central box plait of the bosom, are quite fashionable. Bosoms heavily embroidered will be worn for dress shirts, and also bosoms which are perfectly plain, with three small islet holes for the smallest kind of diamond or pearl or gold shirt studs.

The English folded black necktie is to be worn upon all occasions as the dress necktie in place of white. Windsor black lace ties and black grenadine ties will be worn. These last are very pretty, and for summer there can be nothing nicer. Turn down collars with points from two and one-fourth to three inches long, will be the only ones worn. Long points are out of date. A very beautiful striped necktie, from two and one-third to three inches wide, stripes running lengthways and across, to be tied in a bow under the chin, will no doubt find great favor this summer. White and brown linen shirts, with a linen cambric tie embroidered to match the shirt, the ties pointed with a narrow lace, are new, novel and neat. We were shown some in very pretty patterns of horse shoes, anchors, flowers, &c.

In pocket handkerchiefs we have monograms, crests, and coats of arms worked in the corner.

Wedding night shirts are made with ruffles, and worked in colors. For the more modest they are gotten up plain, but made with coat sleeves. Striped and spotted linen will be worn for traveling shirts.

Canes this year will consist of imported sticks, the natural wood, and are of a small size. Some have the French gilt head, with cord and tassels attached. Black whalebone canes will not be carried.

Sleeve buttons, watch guards, etc., all partake of the sporting character, and are made of oxodized silver and gilt metal. They are very fashionable.

Landlord and Tenant.

Jeremiah Gumbert, formerly a policeman, appeared before Alderman Taylor, on Saturday, and made an information charging J. P. Alcorn with forcible entry and detainer. It appears that Gumbert occupied a house belonging to Alcorn, the rent of which was slightly in arrears. Some difficulty occurring between the parties Alcorn entered the sanctity of Gumbert's domicil and with unlawful force of arms did carry and remove into the public street the furniture of the defaulting tenant, while the lord of the mansion was absent. Jeremiah deeming this conduct on the part of Alcorn highly improper and illegal, made oath as stated.

Officer James Bell has been dispatched in quest of the accused.

A Trusting Grocer.

Leonard Johnston appeared before Alderman Mullin, of the Fourth ward, Allegheny, yesterday, and made oath charging Robert Aldershot with fraud. It appears the latter purchased groceries from the former to the amount of $8, and not only refused to pay the sum of his indebtedness, but also withdrew from Johnston's establishment his unprofitable patronage, and prepared to emigrate to "other fields and pastures new." On learning this fact, the trusting Leonard repaired to the office of the magistrate mentioned, and instituted proceedings as stated. The accused was arrested, but after a hearing was discharged, the evidence being insufficient to warrant the charge.

Stole a Ring.—Antonio Jacker came to the office of Alderman Lynch yesterday and instituted legal proceedings against a certain Martha Coates, for larceny. The prosecutor alleges that Martha, who had been employed in the family of Jacker as a domestic, decamped on Saturday evening last in a rather mysterious manner, taking with her a valuable gold finger ring belonging to Antonio's better-half. A warrant has been issued.

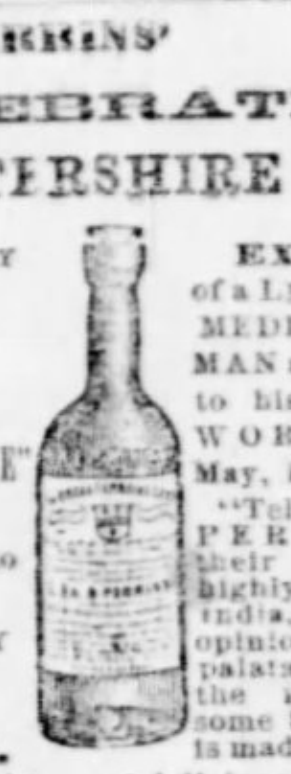
LEA & PERRINS'
CELEBRATED
WORCESTERSHIRE SAUCE



PRONOUNCED BY CONNOISSEURS TO BE THE "ONLY GOOD SAUCE" and applicable to EVERY VARIETY OF DISH.

EXTRACT of a LETTER from a MEDICAL GENTLEMAN at MADRAS to his Brother at WORCESTER, May, 1851: "Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome SAUCE that is made."

The success of this most delicious and unrivalled condiment having caused many unprincipled dealers to apply the name to SPURIOUS COMPOUNDS, the PUBLIC is RESPECTFULLY and EARNESTLY requested to see that the name of LEA & PERRINS are upon the WRAPPER, LABEL, STOPPER and BOTTLE.

Manufactured by LEA & PERRINS, Worcester.

FOR SALE.

FOR SALE.—Farm of 147 acres, situated in Penn Tp., Westmoreland Co., Pa., adjoining Grapeville Station, on Penn'a. R. R., on which there is a good Two story Stone House, with Six Rooms, a Barn, Carriage House, and other buildings; an Orchard of different fruit trees; it is underlayed with coal. There is a Salt Well on it in good order, producing 9 bbls. per day. This property is offered very cheap and good terms.

Also, a Farm of 138 acres, situated in Conemaugh township, Indiana county, Pa., about 2½ miles from the West Penn'a. Railroad, at Livermore Station. The improvements are a Two Story Frame House, with Four Rooms, a double Porch and old Log Barn, Spring House. About 100 acres cleared, the residue in timber, such as white oak, locust and chestnut. This farm will be sold very low, the owner wishing to go west. Possession immediately.

Also, An excellent Farm of 160 acres, of which 85 acres are under cultivation, situate in Christian county, Illinois. Improvements—a new frame dwelling containing 5 rooms; about 400 choice fruit trees, good fencing, &c. It lies within 2 miles of the Illinois Central R. R.; will be sold on reasonable terms. City property taken in part exchange if desired.

Also, 16 Lots in southern Suburbs of Chicago, each Lot 30 by 130, in Kedzier's sub-division of lots. These lots lie one mile North of the junction of St. Louis and Alton and Michigan Southern R. Rs., and are on the line of the Pittsburgh, Fort Wayne and Chicago R. R., just 5 miles South of the Court House, near the new Cattle Grounds, and will be sold for $300 each.

Also, a Farm of 312 acres in Penn township, Westmoreland county, 220 acres cleared and under cultivation, 92 acres of first-rate white oak and other timber, 2 dwelling houses, 1 of them 2 stories, the other 1 story, with a tenant house, with a first-rate Steam Sawmill in good running order; young orchard of grafted fruit. The land is rolling; every acre is tillable, with lime stone soil and sub oil, with never failing springs; within one hundred rods of the Penna. Central Railroad; 28 miles east of Pittsburgh, and three miles west of Greensburg. This farm is pleasantly and eligibly situated in a good neighborhood; every acre is underlaid with coal. The title is good.

Also, a Farm of 116 acres, situated in West Wheatfield township, Indiana county, Penn'a, about 3 miles from Bolivar Station, on the Penna. Railroad. The improvements are, a good two-story Brick House with 6 rooms, a No. 1 frame Bank Barn, and all other necessary out buildings. The site is good, and the price very low, and on easy terms.

COURT REPORTS.

Oyer and Terminer, &c.

Before Hon. James P. Sterrett.

This Court met Monday morning at 10 o'clock, and after calling the new panel of jurors, of whom some thirty answered, proceeded with business.

ANOTHER DRUGGIST INDICTED.

Some of the Ward constables have of late been including druggists in their returns of retail liquor dealers, whether rightfully or not has not so far legally appeared. Last week two Smithfield street druggists, J. C. Mattern and Simon Johnston, were called for trial on indictments (two against each) for selling liquor without license, but no testimony adduced against them, constable James Brown, the returning officer, being unable to swear they sold liquor. Leonard Houck, also a druggist in the Second ward, having been returned, was placed on trial. Constable Brown testified that he had "returned" him, but could not say that he had sold liquor by retail, and had so testified before the Grand Jury. The District Attorney and the Court thought it strange that a "true bill" should have been returned. The jury found a verdict of "not guilty," the prosecutor, James Brown, to pay the costs.

ROBBED A TOLL HOUSE.

James Kerr was tried on an indictment charging him with entering and robbing the toll house of the Allegheny and New Brighton Plankroad Company, in McClure township, in February last, of thirty-five dollars. The jury convicted and he was sentenced to undergo two years imprisonment in the Penitentiary.

OBSTRUCTING LEGAL PROCESS, &C.

John T. Noder, Sarah Noder and others were indicted for obstructing legal process and assault. George Crouch, acting as Constable for McCandless township, proceeded to execute a writ of dispossession on the defendants, in Ohio township, and the resistance he met with was the subject of indictment. It appeared that Mr. Crouch had been elected Constable for McCandless township from year to year, but not having filed his bond for 1866, had no authority to act. He was also Supervisor of the District, and it was claimed that under the law he had a right to execute the writ referred to. The point was raised that although he might, as Supervisor, exercise the powers of a Constable, in the absence of such officer, he could not so do outside of the district for which he was elected, McCandless township. The Court so held, and this ended the case, the prosecutor having endeavored to execute the writ in Ohio township. The prosecution took a *nolle pros.*, equivalent to a verdict of not guilty at the stage to which the case had proceeded.

FORCIBLE DETAINER.

James Hague was called to answer an indictment for forcible detainer. The case was tried without counsel on the part of the defendant, he having declined such assistance. He rented to Colonel Joseph Fricker, as a restaurant, premises on St. Clair street, at the weekly rent of twenty-five dollars. Col. F. had occupied the apartments for some three weeks, paying his rent promptly, but during the first week of February he was served with an attachment by the Sheriff, commanding him to pay no more rent to the defendant until a certain judgment had been satisfied. This paper he showed defendant, and subsequently refused to pay him rent. For this reason (none other appeared) defendant nailed up the doors and windows of the premises and refused to relinquish possession thus forcibly detained. The jury convicted, and the Court sentenced Mr. Hague to pay a fine of five dollars and the costs, and to restore the premises to Col. Fricker.

ANOTHER STRANGE "TRUE BILL."

Conrad Schlerbaugh, of Fourth ward, Allegheny, was called to answer an indictment for selling liquor without license, on which the name of Peter Bolster, constable, was endorsed as having been sworn before the Grand Jury as a witness. Mr. Bolster was called and from his statement it appeared very strange that a *true* bill should have been returned. He had been before the Grand Jury, but had not been asked concerning the case of the defendant, and so far as the facts appeared there was not even the shadow of suspicion against him. On the contrary, the record showed the fact that he was licensed to sell liquor. Verdict "not guilty, county to pay costs." This is the sixth case of a precisely similar nature, and indicates a mistake somewhere worth looking into.

NINTH WARD LIQUOR CASES.

Thomas Normine, of the Ninth ward, was indicted for selling liquor without license, on oath of Albert Allen, constable. It appears that John S. Normine is licensed to sell liquor "with other goods," and that Thomas Normine had been returned through misapprehension, he being supposed to be the proprietor of the establishment. The only question for the jury to decide was as to the costs, which they ordered should be paid by the constable. There were four other cases against the same defendant of the same nature.

George Pennington was also indicted for selling liquor without license in the Ninth ward, on oath of Constable Evans. By the record there seemed to be a lapse of nine days between the expiration of his license and its renewal, during which time he continued selling. Having withdrawn his plea of not guilty, the defendant was sentenced to pay a fine of ten dollars and the costs.

MALICIOUS MISCHIEF.

George Oxley was charged with malicious mischief, in hurling a brick through a window of the premises of George Oxley, but it appearing that a fight had occurred, during which defendant was knocked down and badly abused, the jury in finding a verdict of guilty recommended him to the mercy of the Court.

20. A. Aaronson vs Sarber & Brown.
23. J. F. Wilson vs. Hopkins and Madigan.

Common Pleas Court.

Before Hon. Thomas Mellon.

Edward Naw vs. George Smith. This was an action on a contract. The plaintiff agreed with the defendant, in December, 1863, to construct for him (Smith) a small dwelling in Reserve township for the sum of six hundred and twenty-five dollars. It was alleged the house was built according to contract, but that Smith subsequently ordered its removal to another lot, by means of which he became indebted to Naw for hauling materials, &c., in the further sum of one hundred and forty-eight dollars, making a total sum of seven hundred and seventy-three dollars, less two hundred dollars, the receipt of which was acknowledged. The defendant alleged that he paid bills for materials, &c., amounting to more than the claim of Naw, and that in addition to this the work had not been executed according to contract. Verdict for the defendant.

Adjourned until Wednesday at ten o'clock A. M.

LIGHTNING ROD WORKS.

MUNSON'S COPPER TUBULAR

LIGHTNING RODS.

With Spiral Flanges.

This Rod has the power to carry off as much electricity as twenty common iron rods; in other words is equal to a solid bar of iron thirty inches in circumference. It does not rust; it cannot get out of order. It has received the first premiums at very many State and District Fairs and Institutes. It was never beaten in any contest. It has been recommended by several hundred Professors in the best Schools and Colleges in the United States as the best Rod ever invented. In this list we may name Philotus Dean, Professor of Natural Sciences, Pittsburgh High School; George Woods, President Western University of Pennsylvania, and I. C. Pershing, President Pittsburgh Female College.

Among the hundreds of buildings upon which this Rod was erected within the past year in this vicinity we may mention the Locomotive Works; Banner Cotton Mill Allegheny Flouring Mills; First Presbyterian Church of Allegheny; Second Ward School House, Pittsburgh; City Poor House, Pittsburgh; St. Bridget's Church, Pittsburgh, &c., &c. In the surrounding country many of these Rods have been erected on residences or public buildings. It may be examined on the Lutheran Church at Johnstown; on the Disciples Church at New Castle; on Dr. Reed's residence Hickory; on residences of Esquire Jancey Lawrenceville; E. M. Fulton, McKees port; Wm Ewing Frankfort Springs S. P. & J. N. Larke, Elizabethtown; Col. Wm. Miller, Port Perry; P. Baker, Neville Island; J. Lockhart, Canonsburg; C. W. Lewis, Sharpsburg; J. F. Muller, Freedom. Friend Buxton, Baker-town, &c. &c. &c. This Rod is adopted by all who want Lightning Rods wherever it is introduced, and in an experience of ten years we have never known an instance of damage to a building protected by it, while many instances occur every year of damage to buildings upon which iron rods have been erected; so noticeable has this fact become in communities where attention is called to the subject, that we are almost daily called on to take down the iron rods and erect the Munson Copper Rod.

Price, 30 cents per foot and $3 for points on each rod. Our workmen will go to any part of the country without extra charge.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, April 1, 1867.

The following are the New York stock quotations for to-day: Gold, 133¾; 1881, bonds, 109½; Five Twenties, old, 109⅜; Five Twenties, '65, 108½; do new, 107½; Seven Thirties, 105½. Michigan Southern Railroad, 74⅞; Cleveland and Pittsburgh, 78⅛; Pittsburgh, Fort Wayne & Chicago, 94¼; Erie, 58⅛; Chicago and Northwestern, 35⅝; do preferred, 65¼; New York Central, 105¾; Chicago and Rock Island, 93.

—Public attention is just now being called to what is known as the public money act of June 14, 1866. Section third of this law is of the most significance at the present time and it is being studied with great concern by some parties. This section makes any broker, banker, cashier, teller or director not an authorized depository of the public money, liable to imprisonment for not less than one or more than ten years, if he knowingly receives from any officer or agent of the United States, public money, in the way of a deposit or loan. The same penalty applies to same persons if they counsel or abet in this business. It is at present sufficient for us to simply point out the existence of this well-nigh forgotten statute.

—The Comptroller of the Currency gives notice to holders of circulating notes of the First National Bank of Newton, Massachusetts, the notes of the Tennessee National Bank of Memphis, Tennessee, and those of the First National Bank of Medina, New York, that such notes will be paid in lawful money of the United States, upon presentation at the Treasury of the United States.

—The Chicago Board of Trade has voted to rescind their former resolutions adopting the "cental system," so that it is now virtually abolished. The excuse given for this retrograde movement is, that in former years, statistics of receipts and shipments, and the quotations of prices, have always been recorded and published in bushels, and, in order to arrive at proper comparisons between one year and another it would be necessary to sit down and go through an arithmetical computation daily.

—It is not a high tariff alone that gives to the industrial interests the control of the home market. The currency and prices are important elements in the cost of production in competition with countries producing under dearer currencies. We of the United States present a striking instance of this fact now. Our currency is so cheap that the cost of living is made inordinately high. Flour and meat, and fuel and clothing, and all the items that make up the household expenses, were scarcely ever before equalled, and have no parallel in any other country in the world. Notwithstanding the revenue necessites of the United States now make a high tariff necessary, so cheap is the currency that European nations can manufacture anything, from pig iron to fine silk, cheaper than we can. Our merchants are gradually being impoverished by the high cost of living and the inability of our people to buy at the present high prices. It is merely a question of simple arithmetic how long merchants can pay from $10,000 to $100,000 per annum, store expenses, advance on unsaleable goods, and mill-owners make the said unsaleable goods, before the anticipated crash in merchandise comes. A steady appreciation of the currency should be held all the time in view, giving to labor cheap living, that its production may compete for the market of the world.—*Philadelphia Ledger.*

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, April 1, 1867.

The produce markets were rather quiet to-day, the operations in the leading commodities being somewhat restricted, but Monday is usually one of the poorest days of the whole six for trade. There are but very few country dealers in the city on Mondays, and generally, there is but little done outside of the city trade, and besides the excitement which prevailed in many articles last week and the week previous, has to some extent subsided, and the demand is confined mainly to supplying immediate and legitimate wants. So far, however, as prices are concerned, there are no changes worthy of special notice.

GRAIN—Wheat is in limited supply and firm; No. 2 may be quoted at $2,65 to $2,70 and No. 1 at $2,85@2,90. Rye is firm at $1,40 to $1,45. Oats in better in supply but unchanged—53 to 54, on track, and 55 to 57, in store. Corn is quiet and unchanged. Barley is firm, and we continue to quote at $1 to $1,10 for good to prime Spring.

GROCERIES—There is a steady demand for Groceries, and while the market is firm with a good jobbing trade, prices have undergone no essential change.

FLOUR—The market is steady with a fair demand, and prices are firm although unchanged. We continue to quote at $12,50 to $13,25 for Spring Wheat; $14,00 to $15,00 for Winter Wheat; and $16 to $17 for fancy brands. Rye Flour, $7,75 to $8.

PROVISIONS—Bacon is firm, with sales at 10 to 10½ for Shoulders; 12 to 12½ for Ribbed Sides, and 16 to 16½ for Sugar Cured Hams. Lard is selling at 13¼ to 13½ for prime kettle rendered. Mess Pork $23,50 to $23.75.

SEEDS—Cloverseed is in demand, and may be quoted at 9¼ to 9½ for small lots in store. Timothy seed is unchanged at $3 to $3,25. Flaxseed is in active demand and limited supply; may be quoted firm at $3

BUTTER—There is a continued good demand for Prime Roll Butter, while common is in good supply and very dull. We continue to quote the former at 35 to 38—very choice, 39 to 40.

EGGS—The demand is rather better, and with a slight falling off in the arrivals, prices are shade higher, and we quote at 20 to 21.

HAY—Prime baled is in demand, and the supply is light, while common is dull and hard to move. The former may be quoted at $24 to $25—sale of 1 car fair at $22.

POTATOES—In better demand, and prime Peach Blows sell without much difficulty at 90.

GREEN APPLES—The demand for prime to choice is fully up to the supply, and prices are well sustained. We continue to quote at $3,50 to $4,00 per bbl, for good, and $5 for choice.

OIL—Lard Oil is firmer, and may be quoted at 90 for No. 2, and $1,10 for No. 1.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, April 1, 1867.

CRUDE—The excitement which prevailed last week has subsided, and to-day the market was dull and neglected, and so far as we could learn, not a single sale was effected, notwithstanding there were offers to sell at a reduction from the figures prevailing on Friday and Saturday. For example, there were sellers to-day at 7 to 7¼, with buyers at 6¼ to 6½, while on Thursday and Friday there were no sellers below 7½, some asking 8, Captain Wilkins among the latter, and buyers at 7¼ to 7½. On Saturday evening, there was a sale of 1000 bbls to be delivered between the first of May and fifteenth of June, buyer's option, at 7½, but, as already intimated, there were no buyers at anything like that figure to-day. We have no late advices from Oil City—the eastern markets are reported quiet and unchanged.

REFINED—There was some little inquiry for bonded oil to-day, mainly for future delivery, but the extreme views of holders has a tendency to retard operations. We have but a single sale to record, 500 bbls to be delivered in Philadelphia anytime during the year 1867, buyer's option, at 30½—the buyer paying for the oil now, as well as ten cents per month for storage, until the oil is called for. The sale of 500 bbls standard white, in our report of yesterday, should have been at 32½ instead of 32, and buyer's option, all the year, instead of seller's, which puts quite a different face on the transaction. Free Oil may be quoted at 40c, in fifty or hundred barrel lots, and 42 to 43, in a retail way.

Petroleum in Liverpool.

LIVERPOOL, March 15.—Petroleum is very dull, and prices are lower in all positions; sellers on spot at 1s. 5½d.@1s. 5¾d., and for last four months' delivery 1s. 9d. per gallon is the nearest value, but responsible buyers are difficult to find for forward deliveries at any prices, the lower quotations from America having a very depressing influence. Our stock of refined is 34,476 bbls, and delivered last week 1548 bbls. Naptha keeps firm at the late rapid advance, being held chiefly by one firm. Any considerable imports would, no doubt, cause an instant decline. BOWES, GAME & MOREN.

Baltimore Market.

BALTIMORE, April 1.—Coffee firm and scarce; Rio cargoes hourly expected. Sugar steady, at 10@10½c for fair to good refining Flour firm. Wheat dull; sales of white southern at $3,35@3,55; red southern at $3,50; Pennsylvania red at $3,10. Corn active, and prices fairly maintained; stock large; sales of white at $1,06@1,13; yellow at $1,09; mixed western at $1,03@1,05. Oats 67@68c. Provisions quiet and nominally unchanged. Whisky; no sales in bond, at 2,30@2,32.

MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, April 1.—The money market active and firm at 7c for call loans. Sterling quiet at 8¾@9, gold, for first-class bills. Gold a shade lower, opening at 133⅞, declining to 133⅝, and closing at 134⅛. Government Stocks a shade easier. Freights to Liverpool dull and lower; engagement for 5,000 bu. Corn, per sail, at 3d.

The demand for money was very active throughout the day; market stringent at 7 per cent. for call loans, with miscellaneous collaterals. The general rate in Governments was 6 per cent. Little doing in discounts and only prime paper is current at 7@8 per cent. It will probably be some days before comparative ease is restored. It is rumored from Washington that the Secretary of the Treasury will not retire the usual $4,000,000 legal tenders for March. Gold closed firmly at 134⅛. Foreign Exchange—demand very moderate. The Michigan Southern transfer books closed on Saturday and indicate the retention of the old board of directors.

WEEKLY BANK STATEMENT—Loans, $255,282 364; decrease, $411,795. Specie, $8,522,600; decrease, $621,304. Circulation, $33,669,195; increase, $149,794. Deposits, $188,480,250; decrease, $3,895,365. Legal Tender, $62,439,811; increase, $1,554,853.

Governments were firm in the morning with fair demand and advance on 5-20s. This afternoon the market was quiet and generally a fraction lower. The following were the closing prices: Coupons of 1881, 109@109¼; 5-20s, registered, of '62, 103½@104; 5-20s coupons of '64 109⅛@109¼; 5-20 coupons of '65, 108@108¼; do January and July, 107¾@107⅞; 10-40s registered, 97¾@98; 10-40 coupons 98@98½; August 7-30s, 106@106½; June do., 105⅝@105¾. Border State bonds were strong. Missouri, 93¾; new Tennessee, 64; Virginia, 37. The railway market was steady and dull at the open board and stock exchange; after the regular call prices fell off from ¼@¾ per cent. The market was dull and heavy all the afternoon, and declined still further. Outside orders are very limited.

William H. Heath & Co. report the following 5:20 P. M. prices: Gold 133⅞@134⅛; O. & M. Certificates, 26¾@27; Canton, 46@46¼; Cumberland Coal, 31½@33; Quicksilver, 32½@33; Mariposa, 8¾@9; do. preferred, 22¾@23; Western Union Telegraph, 41¾@42; New York Central, 105⅝@105¾; Erie, 58⅛@58¼; Hudson, 137@138; Reading, 102⅛@102¼; Michigan Central, 108@109; Michigan Southern, 78@78¼; Pittsburgh, 78¾@79; Toledo, 121½@122; Rock Island, 92⅝; Northwestern, 35⅝; do. preferred, 65⅛@65¼; Fort Wayne, 93½@93¾. Steamship shares higher in America, but subsequently sympathized with the rest of the market. Coal and miscellaneous stocks unchanged.

Mining market generally quiet, and interest centered in few stocks. Gregory weak, sold from 914 to 925; Quartz Hill firmer, rose to 320; Corydon firm at 395@400; Alameda in demand, and sold at 830@840; Columbia advanced to 315.

New York Produce Market.

NEW YORK, April 1.—Cotton opened very firm, but closed dull and drooping. Sales 2000 bales at 30@32 and 31 for middling upland; closing at inside price. Flour—receipts of 7238 bbls; the market opened a shade firmer, but closed dull and drooping. Sales of 6800 bbls at $6,70@10,70 for superfine State; Western $10,95@11,35; extra western $12,40@13,90 for choice do. $11,65@12,53; for shipping brands extra round hoop Ohio; and 12,65@13,90 for trade brands. Canada flour in fair request, with sales of 600 bbls in bond at about $11,25; California flour firm; sales of 300 and sacks at $15@16,5. Whiskey quiet and unchanged. Receipts of wheat none; market opened quiet and firm; but closed dull; Sales of 29,000 bushels at $2,47@2,48 for No. 2 Milwaukee and $3,15 for white California. Rye drooping; sales of 13200 bushels western at $1,32½@1,33. Barley dull; sales of 14,000 bushels Canada west for $1,14@1,20. Barley malt quiet. Receipts of Corn 4,295 bushels; market active and some better, closing dull; sales of 10,300 bushels at $1,16@1,20 for mixed western in store; $1,21@1,22 afloat, $1,21 for western yellow; in store, $1,19½; Jersey yellow afloat and $1,21 for southern yellow Receipts of Oats 7,000; Oats active at 1c @2 cts better, sales 45,000 bushels at 67c@68 old western; 73@75c for State, and 68@71c for new western. New York Cattle Market.

NEW YORK, April 1.—Receipts of 3,800 beeves, 13,070 sheep and lambs, and 15,166 hogs. Beeves; supply to-day is 110 head of fair quality. This is not sufficient for the wants of the trade, and as the weather favored sellers, they had little difficulty in advancing prices 3⁄4@1c over last Monday's rates. The market, however, was slow, as the butchers were evidently afraid of purchasing on Monday more than was really needed to supply the wants this week; poor to medium 12@15c; medium to fair steers 13 1-8@15c; good steers and fat oxen 15@16½c; prime steers 16½@17c. The majority of the sales were at 15@17c. The average price was 16¼c. Few choice sold at 17¼@18c. Sheep easier, especially common, while good is steady. To-day the market was slow, and does not exceed 9½c for prime, though an extra bunch might realize 10c. We quote common to fair at 8@9c for good prime 9@9½c; extra 9½@10c. Lambs nominal; sales reported during the week 9,832 head. Hog market ruled steady throughout the week, but the quality of the stock on an average was poor, still prices maintain their own; best quality $8,50@8,75; fair to good $7,50@8,00; common and rough $7,25@7,50.

Cincinnati Market.

CINCINNATI, April 1.—Cotton dull and prices nominal; middling held at 27@27½c—no demand. Flour unchanged and firm, but the demand is local; trade brands $11,50@13,50; fancy brands $14@16. Wheat scarce, but little offering; demand light and prices unchanged; No 1 spring $2,55@2,60; winter $2,90; No 2 winter $2,85@2,87. Corn in bulk 88@89c, sacked—the outside rates for white. Oats advanced to 58@59c, and at the close held at 60c for No 1, bulk or elevator, and 67c, sacks. Rye scarce; sales at $1,50. Barley quiet and unchanged. Whisky dull and nominal at $2,26½—no buyers at over $2,26. Provisions firm and not much done; mess pork $22,75@23,00. Bulk Meats 8¼@11@11¾c. Bacon; 9½@11½@12½c for shoulders, sides, clear rib and clear sides. Hams; 13½c for plain, and 15@15½c for sugar cured. Lard 12 3-4@13c. Groceries steady; sugar 11¼@14c; coffee 25@27c. Seed; clover $10.50, timothy $2.90; flax $2.50. Butter firm at 30@33c for fresh. Eggs 17@18c. Cheese firm at 17@17½c. Gold 133¼ buying, and 134½ selling. Exchange steady at par buying, and 1-10 premium selling. Money remains close at 10@12 per cent.

Chicago Market.

CHICAGO, April 1.—Flour quiet and firm at about Saturday's prices, under an active speculative demand, chiefly by short sellers. The market for No. 2 Wheat was excited and 7@8c higher; sales at $2,19½@2,24; closing at $2,23¼@2,24; No. 1 Spring 2c higher; sales at $2,57. Corn active; in speculative request and 2c higher, at 93¼@96¾c for No. 1; 88c for No. 2; closing firm at 95½c for No. 1, 80@80½c for fresh receipts of rejected. Oats in active movement with an advance of 2c; closing firm at 48½c for No. 2. Rye ½c better; No. 1 closes firm at $1,31. Barley moderately active and nominal at 80@90c in store. There is scarcely any movement in Provisions. Mess Pork held at $22,75@23,00, with buyers at $22,50. Short ribbed Middles 10¼c for loose. Sweet pickled Shoulders 8¾c for loose. Lard nominal at 12¾@13c. Dressed Hogs $8,75; Live dull and unchanged.

RIVER NEWS.

The river was rising slowly at this point last evening, with scant eight feet in the channel. There has evidently been heavy rains at the headwaters of the Allegheny within the past day or two, as that stream has risen considerably at Oil City, and was still rising at last accounts with forty inches at that point. The weather yesterday was stormy and considerably colder than on Sunday, though very favorable for out-door business.

A dispatch from Louisville says the new low pressure steamer Richmond arrived at the landing at that city on Monday afternoon, and will leave for New Orleans on her maiden trip April 6th.

The only arrival was the Leonora No. 2, from Louisville. She had a very good trip. The Argosy, from Cincinnati, is due here to-day, and will return as usual on Wednesday. The Ezra Porter will leave for Cincinnati on Saturday.

The Leclaire, Capt. Saint, is announced to leave for the gold regions of the Upper Missouri this evening, and passengers and shippers should make a note of this. The Leclaire is a staunch and cosy craft, and is well adapted for the long voyage before her.

The Bellevernon, Capt. Darragh, is filling up rapidly, and will be the first boat out for St. Louis. Persons intending to go on this boat should engage rooms at once, as they are rapidly being engaged. The Columbia, we observe, has a sign up for Saint Louis, Dubuque and St. Paul.

The Kenton, Capt. J. H. Dunlap, is filling up steadily for New Orleans, and will be the first boat to leave for that point. The Dubuque, Capt. Parker, will cut loose for the Upper Mississippi on Saturday without fail.

The Urilda left for Oil City last evening, with a fair trip.

The Ida Rees and Minnie left Cincinnati for Pittsburgh on Saturday. The towboats Lake Erie, Dart and Hercules arrived at Louisville on Saturday, with heavy tows of coal, and the Kate Robinson, passed there the same day en route for St. Louis. The Glendale, en route from St. Louis to Pittsburgh, was at Cairo on Friday, and the Emma No. 3, en route from New Orleans, reached there on Saturday.

The Glasgow, en route from Pittsburgh to St. Louis, left Cincinnati on Saturday night, only stopping long enough to procure pilots and replenish stores.

Capt Donaldson, of the G. R., "acknowledged the corn" when here, and said the Richmond "was the finest specimen of floating architecture he had seen." He is a good judge of a steamboat.—*Louisville Democrat.*

The Richmond will doubtless be, when finished, a fair specimen of floating architecture, but we do not believe that Captain Donaldson ever said that she was the finest specimen he ever saw. We agree with the *Democrat* that he is a good judge of a steamboat, and further, it is generally conceded that Louisville is not the place to build a fine steamboat.

We clip the following items from the Cincinnati *Commercial*, of Sunday: Captain H. Morris, late clerk of the Annie Laurie, has taken command of her. Capt. Crane yesterday sold three-fourths of the Alice V. to Capts. A. and Oscar B. Jolly and Captain J. Wes. Black, at the rate of $11,000 for the boat. We believe it is the intention of the owners to run her regularly in the New Orleans trade. The Ida Rees, for Pittsburgh, left with about 250 tuns, including 300 barrels pork, 100 tres bacon, 100 sacks meal, 29 hogsheads tobacco, 125 tres lard, and 250 barrels flour.

The Sherman arrived at St. Louis from Pittsburgh on Friday last. Saturday's *Democrat* says: Messrs. E. F. Dix, James Yore, and perhaps Thornburg, yesterday sold the War Eagle to Messrs. Joseph and John B. Labarge for $20,000. This boat was built in 1858 by Captain H. L. White, and cost $45,000.

The Vicksburg *Times* understands that Captain Leathers' new Natchez, which is to surpass any of his former efforts, is to be built near Louisville, at a cost of $300,000. The river reporters of the *Times* and the *Herald* of Vicksburg, are punching each other. The one says of the other, "He's a tautologically alliterave pneumatologist. If he won't fight after that, its because the water's too high."

THE DEAD ALIVE—HEAVY SUIT.—We yesterday met Mr. Murphy, of Texas, a passenger who was supposed lost when the Mercury sunk in White river, together with his son. Both were saved and he is now in the city to institute suit against the owners of the boat as "common carriers," for the loss of his property, some 219 mules which were on the boat and were lost when the boat sunk. He lays his damages at $20,000.

Mr. Murphy is a drover, all the way from San Antonio, Texas, and had driven his mules, 300 in number, from the confines of Texas through to Kansas, and was on his way back, bound for Memphis and a market, and took passage on the Mercury in White river for Memphis.—*Louisville Courier.*

The W. H. Brown, towboat, left Pomeroy last Wednesday noon with a tow containing 20,675 barrels of salt and 10,000 bushels of coal, and arrived at Louisville Friday morning. This is quick time and an unusually large tow.

A St. Louis exchange of Friday says: The mountain trade is fairly inaugurated, and the Amelia Poe and Only Chance left last evening. The former had 184 tons of freight and eighteen through passengers. She will be followed by the Yorktown to-morrow, of the same line.
